

## UK's Advanced Business Solutions to Resell GSW Telnet Server for Windows

Georgia SoftWorks (GSW), developer of the [GSW Telnet Server for Windows](#), welcomes Advanced Business Solutions to its ever growing network of global resellers.

Dawsonville, Georgia (PRWEB) August 22, 2013

Georgia SoftWorks announces the addition of Advanced Business Solutions (Advanced) as a reseller of the [GSW Telnet Server for Windows](#).

Based in the UK, Advanced provides leading integrated, award-winning business applications and services that enable public, private and third sector organizations to retain control, improve visibility and gain efficiencies while improving corporate performance.

Advanced offers Georgia SoftWorks Telnet Server for Windows in the warehousing, logistics and manufacturing industries enabling customers to install the telnet server with Radio Data Technology (RDT) units onto local servers, bridging the gap between the RDTs and OpenWMS, Advanced's warehouse management system.

"The partnership with Georgia SoftWorks strengthens our offering to new and existing customers in the warehousing, logistics and manufacturing sectors. It will provide significant benefits to our customers by having a flexible, secure, integrated solution from a single supplier," said Simon Fowler, Managing Director, Advanced Business Solutions (Commercial).

The Georgia SoftWorks' Telnet, SSH Server for Windows and Client applications are industrial quality software designed for superior operation in demanding mobile RF Terminal environments, such as warehousing, making it an excellent match with the Advanced solutions. In addition to the flexibility offered by the GSW product line, GSW offers unsurpassed security, which is essential in today's healthcare and business industries serviced by Advanced.

### About [Georgia Softworks](#)

Established in 1991, Georgia SoftWorks is a privately held software development company recognized for creating high performance data communications, system and telecommunications applications. Georgia SoftWorks has obtained a worldwide presence with its industrial SSH/Telnet Server for Microsoft Windows. GSW's long-term commitment to SSH/Telnet has led to the pioneering of major features such as Session Shadowing, Session Monitoring, Graceful Termination, Automatic Logon, Logon Scripting and more recently Team Services technology which allows mobile device users to transfer, swap, share and recover mobile device sessions. GSW has also provided the very first SSH Server to provide Digital Certificate Authentication with Internet Information Server (IIS) like certificate to user account mapping. This includes 'One-to-one' and 'Many-to-one' mapping methods and also support certificate trust lists (CTL).

### About [Advanced Business Solutions](#)
