ADC Distribution GmbH is now an authorized reseller of the Georgia SoftWorks [Telnet Server for Windows](#) and SSH Server for Windows. Located in Germany, [ADC Distribution](#) is a member of the OPAL Group, a leading AutoID systems integrator in Europe, with a focus on SAP®.

Established in 1996, The OPAL Group is headquartered in Wetzikon/Switzerland and has subsidiaries in Austria, Germany, Netherlands, France and Denmark. OPAL and its companies serve and will offer the GSW software primarily in the pharmaceutical, manufacturing and automotive industries.

"GSW values our reseller relationships. They play a vital role in the worldwide distribution of our software," said Diane Sexton of Georgia SoftWorks. "We are excited to add ADC to our reseller network. They have a lot of experience with SAP® and the industries that they serve."

The Georgia SoftWorks UTS (Telnet Server for Windows and SSH Server for Windows) has been used in demanding [SAP](#) environments since the 1990's, providing consistent operation, high end features, performance and unmatched security, which is essential in the industries that ADC serves. ADC and the OPAL group focuses on SAP, making the partnership with Georgia SoftWorks a win-win.

"The Georgia SoftWorks software is an excellent and well-tested tool to connect mobile devices to ERP systems," said Johannes Driessen of ADC. "We chose GSW because of the strong reliability of their connections."

Georgia SoftWorks is a software development company that develops industrial quality software designed for the most rigorous commercial environments. GSW has gained its worldwide recognition from the development of the GSW Telnet Server for Windows and [SSH Server for Windows](#). They have end users and resellers on every continent (except Antarctica) and operate in a variety of industries throughout the world.

"One of the features we most like about the GSW UTS are the simple possibilities to logon and the good support of the stylus in the mobile devices," said Driessen. "We appreciate the good and reliable support of GSW."

### About Georgia SoftWorks:

Established in 1991, Georgia SoftWorks is a privately held software development company recognized for creating high performance data communications, system and telecommunications applications. Georgia SoftWorks has obtained a worldwide presence with its industrial SSH/Telnet Server for Microsoft Windows. GSW's long-term commitment to SSH/Telnet has led to the pioneering of major features such as Session Shadowing, Session Monitoring, Graceful Termination, Automatic Logon, Logon Scripting and more recently Team Services technology which allows mobile device users to transfer, swap, share and recover mobile device sessions. GSW has also provided the very first SSH Server to provide Digital Certificate Authentication with an Internet Information Server (IIS) like certificate-to-user.
